

Learn to mow with a traditional scythe! This FREE course uses practical skills and learning-by-doing to provide people with the knowledge and experience to continue scything on their own.

The 2-day course will cover the following topics:

- Features and advantages of the Austrian scythe
- How to set up the scythe & adjust the blade
- Comfortable mowing styles for more efficient cutting
- Peening (hammering the blade as part of the sharpening process)
- Sharpening in the field
- Care & maintenance

A certificate of attendance will be given to Green Angels who attend this course
