

# Create your own nature story

## What you need:

- Stick
- Different coloured string, wool, tape
- Scissors
- Colourful nature objects

Use your journey stick to create a map of your local green space.

Make sure you wash your hands afterwards and ask for help from an adult.

Use colourful string or wool to tie objects to your stick, or to represent a part of your journey.

Make sure to only pick objects that nature has dropped.

Create your own nature story through a journey stick! Collect your favourite natural objects to create a story or show your journey through your local green space.
