

Make your own binoculars

Instructions

1. Stick the two paper rolls together by using double sided tape, glue or by wrapping paper around both rolls and gluing the paper edges together.
2. Using a hole punch or pencil, make a hole at the top of each side of the rolls. Make sure the holes are on the outside edge.
3. Loop your string, wool or ribbon through the holes, and tie a knot at the end.
4. Decorate your binoculars!
5. Go bird watching and have fun!

The string, wool or ribbon should be long enough to go over your head.

Make sure you ask for help from an adult

What you need:

2 x cardboard tubes Hole puncher
String, wool or ribbon Scissors
